

The Passive Funnel System: Simple, Smart & Crypto-Friendly

Introduction: Funnels That Work While You Don't

In a world full of hype, complicated tech, and systems that require constant hustle, this guide shows you how to start with a simple, rebrandable funnel system that works *with* you — not against you.

The Passive Funnel System was built for digital entrepreneurs who want traction without burnout. With

built-in crypto income potential, viral exposure, and the ability to promote multiple businesses of your choice, this system is the perfect launchpad — whether you're just starting out or adding a new stream to your portfolio.

Quick Insight: Unlike many systems, this doesn't require you to recruit, build a team, or even pay to get started. It's built around a smart system that does the heavy lifting for you.

In this guide, you'll discover how to:

- Access a ready-to-use funnel with one click
- Build passive exposure to your own business offers
- Leverage smart automation and crypto tools
- Share with curiosity and attract viral attention

By the end, you'll have a personalized link like this one:

And you'll be ready to start sharing a funnel that delivers real value — while positioning you to earn.

Section 2: How Smart Funnels Create Passive Exposure

Most marketers fail because they're either trying to build everything from scratch or constantly chasing people who aren't ready to take action. This system changes that — by turning your funnel into a magnet that does the work *for* you.

Here's how it works: Once you activate your account, the system automatically creates your branded funnel. You choose which of your own business opportunities to showcase (up to five), and each one gets its own dedicated landing page — all linked to your ProfitsXpress referral ID.

- ✔ Your funnel includes a lead capture form + follow-up logic
- ✔ Each lead magnet is branded to Malcolm Keith
- ✔ Your programs are displayed automatically — no extra setup needed

With every download, every share, and every lead you collect — your funnel keeps running behind the scenes, building exposure and trust with zero extra effort.

Section 4: How to Share Your Funnel (Without Feeling Salesy)

You don't need to be a copywriter or social media pro to make this system work. In fact, the less you "sell," the better. Your lead magnet and funnel do the explaining — you just need to share with curiosity and intention.

- ✔ Use curiosity posts: "This tool got me free leads while I was sleeping"
- ✔ Share screenshots of results, leads, or branded PDFs
- ✔ Use Messenger or DM: "Want to see what I'm testing?"

Every time someone clicks your link, they're stepping into **your** system — complete with your offers and your follow-up. You're not pushing anything. You're simply guiding them into a proven flow.

Pro Tip: Be your own case study. Use the system, share your journey, and let people watch your results unfold.

Section 5: Final Thoughts + Call-to-Action

You've now seen the full picture. This isn't just another tool — it's a full ecosystem designed to help you grow, promote, and earn with simplicity and confidence. Whether you're focused on crypto, digital products, or affiliate programs, this system has your back.

What you do next is what separates readers from action takers. Don't let this momentum fade. Set up your funnel, get your first lead magnet branded, and start building real leverage today.

Smart Move: Your branded link is already waiting for you:
